

IUTAM Symposium on Variations of Domain and Free-Boundary Problems in Solid Mechanics

Filesize: 8.69 MB

Reviews

These sorts of ebook is the best publication accessible. It is amongst the most amazing ebook i actually have read. It is extremely difficult to leave it before concluding, once you begin to read the book.

(Jace Gusikowski IV)

IUTAM SYMPOSIUM ON VARIATIONS OF DOMAIN AND FREE-BOUNDARY PROBLEMS IN SOLID MECHANICS

Book Condition: New. Publisher/Verlag: Springer Netherlands | Proceedings of the IUTAM Symposium held in Paris, France, 22-25 April 1997 | Proceedings of the IUTAM Symposium held in Paris, France, 22-25 April 1997 | This proceedings volume contains 39 papers presented at the IUTAM Symposium on Variations of Domains and Free Boundary Problems in Solid Mechanics, held in Paris from April 22nd to 25th 1997, at the Ecole des Mines and the Ecole Polytechnique. This symposium offered an opportunity for researchers from all engineering disciplines and applied mathematics to review the state of the art and to identify new trends and new features in the field. Mechanical modelling, mathematical discussion and numerical resolution have been the primary goals of the meeting. Principal subjects of discussion concerned ground freezing, shape memory alloys, crystal growth, phase change in solids, piezo-electricity, wavelets, delamination, damage, fracture mechanics, polymerization, adhesion, friction, porous media, nucleation, plasticity, inverse problems, and topological optimization. More than 80 scientists of different nationalities participated in this symposium. Efforts of many people made this symposium possible. We would like to thank all the authors and participants for their contributions and the members of the Scientific Committee for their patronage and assistance in selecting papers. The effectiveness of the Organizing Committee is acknowledged. We are pleased to thank all the involved members of the two Laboratories : Laboratoire de Mécanique des Solides and Laboratoire des Matériaux et des Structures du Génie Civil, specially Valerie Fran | Preface. Steady State Solutions to a Multi-Dimensional Phase Change Problem in Ground Freezing; J.F. Rodrigues. Evolution of Phases in a Shape Memory Alloy by Local and Global Minimisations of a Non Convex Potentials; O. Maiconneuve, et al. Micromechanical Modelling of the Thermomechanical Behavior of Shape Memory Alloys by Local and Global Minimisations...
