

War of the Worldviews: Science Vs. Spirituality

By Chopra, Deepak; Mlodinow, Leonard

Harmony, 2011. Book Condition: New. Brand New, Unread Copy in Perfect Condition. A+ Customer Service! Summary: We need a worldview grounded in science that does not deny the richness of human nature and the validity of modes of knowing other than the scientific. If we can bring our spirituality, the richness and wholesomeness of our basic human values, to bear upon the course of science in human society, then the different approaches of science and spirituality will contribute together to the betterment of humanity. This book points the way to such a collaborative endeavor.- His Holiness the Dalai Lama Leonard Mlodinow is a lucid thinker and engaging writer who excels in making science and the scientific method accessible.- Stephen Hawking Deepak Chopra did an excellent job explaining why the all-embracing holistic quantum field suggests a dynamic, alive cosmos. This is an interesting and provocative book which will be read and talked about for a long time to come. - Hans Peter Duerr, Director Emeritus, Max-Planck-Institute for Physics and Astrophysics Two compelling figures of our time mindfully joust on the battlefield of brain, cosmos, and evolution. This is a win-win for the authors and for every reader. - Rudolph Tanzi, Ph.D.,...
