It also supports research to develop methamphetamine lab detection technologies and to better understand the biological effects caused by meth production. H. R. 798 seeks to provide the information and tools necessary to protect human health and the environment and to safeguard our communities. I recognize Mr. Wu to present his - - Mr. W. Thank you very much, Mr. Chairman. Meth abuse and U production in the United States has grown to epidemic proportions during the past five years. Meth creates havoc in our communities, stretching thin our law enforcement and community service re-sources. Unlike other drug epidemics, the meth epidemic also leaves toxic mini-waste dumps wherever meth has been produced. In addition, meth is frequently made in residential settings where children are present, and chemical residue can harm the health of future residents. States are taking action to address this issue. My State of Or-egon has been especially active in developing guidelines for the cleanup of former meth labs. I must note that Oregon and Wash-ington have both developed standards; however, the standards are different. States need additional assistance in their efforts, and this is the gap filled by H. R. 798. This bill would provide the research structure for the develop-ment of health-based cleanup guidelines. It also provides for a study of the long-term health effects on children and first respond-ers to - of the meth labs. I am proud to be an original co-sponsor...
