

An Enumeration of North American Lichenes, with a Preliminary View of the Structure and General History of These Plants, and of the Friesian System: To Which Is Prefixed, an Essay on the Natural

By Edward Tuckerman

Forgotten Books, United States, 2015. Paperback. Book Condition: New. 229 x 152 mm. Language: English . Brand New Book ***** Print on Demand *****.Excerpt from An Enumeration of North American Lichenes, With a Preliminary View of the Structure and General History of These Plants, and of the Friesian System: To Which Is Prefixed, an Essay on the Natural Systems of Oken, Fries, and Endlicher The preface, as the last part of an author s work, gives him an opportunity to review what he has written, to express his own sense of its merits and defects, and to put it in a true light. It is, then, ray wish to introduce the preliminary sketch as valuable only for what it presents of truth of the systems it treats of, and as making no claim to other consideration. I feel too deeply the difficulty and the importance of accurate knowledge, to be willing to venture any opinions of my own on the topics of this paper without hesitation. Such reflections as occurred to me in writing it I have however set down, in the order in which they arose, and the manner which then suggested itself. The whole is very imperfect, but...

This book is definitely not simple to begin on studying but quite fun to see. I actually have read and that i am sure that i will gonna read through yet again once again in the foreseeable future. It is extremely difficult to leave it before concluding, once you begin to read the book.
