

The Knowledge Capital of Nations: Education and the Economics of Growth

By Eric A. Hanushek, Ludger Woessmann

MIT Press Ltd. Hardback. Book Condition: new. BRAND NEW, The Knowledge Capital of Nations: Education and the Economics of Growth, Eric A. Hanushek, Ludger Woessmann, In this book Eric Hanushek and Ludger Woessmann make a simple, central claim, developed with rigorous theoretical and empirical support: knowledge is the key to a country's development. Of course, every country acknowledges the importance of developing human capital, but Hanushek and Woessmann argue that message has become distorted, with politicians and researchers concentrating not on valued skills but on proxies for them. The common focus is on school attainment, although time in school provides a very misleading picture of how skills enter into development. Hanushek and Woessmann contend that the cognitive skills of the population -- which they term the "knowledge capital" of a nation -- are essential to long-run prosperity. Hanushek and Woessmann subject their hypotheses about the relationship between cognitive skills (as consistently measured by international student assessments) and economic growth to a series of tests, including alternate specifications, different subsets of countries, and econometric analysis of causal interpretations. They find that their main results are remarkably robust, and equally applicable to developing and developed countries. They demonstrate, for example, that the...
